**Cc:**  
**Subject:** Security Update

Hello All,

You may have noticed a State Trooper walking around the State Lab Institute recently. Trooper Gene Lawrence has been assigned to this location for an indefinite period of time in response to a general increase in security at this campus. These measures also include more watch staff at the Front Desk, locking down certain floors to prevent non-employees from entering, and a general review of security procedures. The trooper will help us assess security vulnerabilities and provide guidance on ways we can improve the protection of our facility and its staff.

As a quick reminder, all employees should wear their ID badge daily. This is particularly important because all employees on the 3rd Floor will have proximity wafers attached to their badges within the next few months. The East Wing of the 3rd Floor will be locked down to prevent non-employees from entering, but you will be able to access all areas on 3 using your ID badge with the wafer. If your badge is currently cracked or in poor condition, please see Kristen to fill out paperwork to receive a replacement ID badge. If you have any questions, please feel free to contact Julie or Kristen.

Thanks,  
Kristen
